the head of the lakes.
In connection with the Union Pacific, three daily trains run through solid to Chicago. For information consuit C. A. Walker, general agent, 206 South Main street, Salt Lake City.

QUEEN VICTORIA'S HAIR.

Its Great Profusion Was Always a Cause of Wonder.

Cause of Wonder.

Even at the age of 86 years, Queen Victoria's hair was a marvel of luxuriance. The court physician, following Prof. Uma's discovery, undoubtedly, treated her majesty's scalp with a germ destroying preparation, that was not made public. It is now known, however, that the remedy for dandruff, the germ lestroving element, is embodied in Newbro's Herpicide, the only hair preparation on the market that does destroy the dandruff germ. Without dandruff, hair will grow profusely and falling hair will be stopped. "Destroy the cause, you remove the effect." Sold by leading druggists. Send be in stamps for sample to The Herpicide Co., Detroit, Mich.

The Salt Lake City Brewing company has placed a new brand of lager beer or the market called the "Wuerzburger." The principal saloons in the city are handling it. Call for it. It is fine.

Lings placed a new brand of lager beer on the market called the "Wuerzburger," The principal saloons in the city are handling it. Call for it. It is fine.

CONSERVATIVE **SPECULATORS**

Stock Market Firm But the Bulls Were Rather Tame.

HESITATION AND REACTION

BANKERS SOUND A NOTE OF Pfd. Rubber Goods . WARNING.

New York, July 29.-Operations in the stock market took on a more conserva-tive tone again today and the leaps and bounds of the first recovery from the long depression gave place to a more

was sufficient to force prices backward again.

There is an element among stock buyers which refrains persistently from entering the market until conclusive evidence that the turn has come. It is made up in part of speculative shorts for a long turn and in part of investment buyers who dread to hold stocks through a decline, in distinction from that class called bargain hunters, which takes stocks and holds them regardless of the market prices. The demand from this element seems to have been exhausted quickly.

The bargain hunting element, of course,

ement seems to have been exhausted quickly.

The bargain hunting element, of course, declines to follow any advance in prices. The recovery here had sufficient dimensions to Induce profit-taking also by the speculative buyers for a short turn who were so fortunate as to get in at last week's low prices. It is an inevitable consequence of such a forced liquidation with little sustaining power in the market that a strong class of holders should have been able to hold through the weakest point by an agreement between themselves and their creditors in order to avert needless sacrifice to both by forced liquidation of collateral. The result is a considerable amount of credits extended with a stipulation for liquidation at the first good opportunity.

A rising market at this time meets a considerable pressure of such contingent ilouidation. Aside from these technical considerations there remains a conservative spirit of walting to perceive how far the business and industrial affairs of the country will respond to the possible index afforded by the recent movement of securities prices.

The opinions of prominent bankers on

shares, opations particulars call at city ticket office, 201 Main street, booklet and particulars call at city ticket office, 201 Main street, booklet and particulars call at city to Chicago, and maintains the fastest service between Omaha and the city at the head of the lakes.

In connection with the Union Pacific, three dally trains run through Walker of the control of the control of the call of the city at the head of the lakes.

developed, induced by bullish news from the northwest, where reports from Manitob showed greatly reduced crops in that section. Shorts covered freely, and some prominent longs reinstated lines which they had sold out, which resulted in the market taking a sharp upturn. September selling up to 79½c. On the advance offerings became extremely scarce and prices were well maintained throughout the remainder of the session. Sptember cicsing at 79½c, a net gain of 1½61½c. Clearances of wheat and flour were equal to 280,000 bushels. Primary receipts were 571,000 bushels. against 1,359,400 bushels last year. Minneapolis and Duluth reported receipts of 104 cars, which, with local receipts of 57 cars. 14 of contract grade, made total receipts for the three points of 161 cars, against 174 last week and 337 a year ago.

General rains throughout Iowa. Illinois and Nebraska caused heavy selling in corn at the opening, and extreme weakness prevailed. September being off ½ to ¾c, at 51½654½. At one time the offerings were overwhelming and the market was badly demoralized, but later a good demand developed on reports from sections of the corn belt to the offect that only light showers had fallen and that much more rain was needed. After selling between 51½ and 52½c. Local receipts were 112 cars, with 14 of contract grade. Oats acted largely in sympathy with corn, opening weak, but showing a good rafly later with local longs who had sold out their lines, replacing them on the break. The close was firm, with September ½c higher at 33%, after ranging between 33 and 33%@34c. Local receipts were 163 cars.

Provisions ruled active and strong the greater part of the day. There was excellent demand for lard and ribs, supposed to be for the account of a big packer, which advanced prices materially, pork being carried up with them. The close was strong, with September pork up 32½c. September lard up 42½-446c at \$8.07½.

The leading futures ranged as follows:
